Babies enjoy books!

BoekStart

de Bibliotheek

Do you have a baby? Do you think it is important for your child to read when he or she is older? Do you give your child the opportunity to discover books? Preferably together with mum or dad. Nice and cosy, on your lap. Children's books contain many pictures and little text. This gives you the opportunity to tell a story. The books can be obtained from the Library. Reading with babies helps. Research has shown that this is so. It increases your child's opportunities at school. This is the reason that we now have BoekStart for babies. Your baby can become a member of the Library free of charge. You will also receive a gift: a suitcase with two children's books. The pictures show how BoekStart works. >>> boekstart.nl
